Chassis Number:	AR193044
Engine Number:	AR00601
Original Colour:	Rosso ext. Nero Int.
Current Status:	To be restored
Kilometers:	79379 miles
Price:	TBD

Chassis number AR193044 is a great example of a Touring Spider 2600. Built on October 14, 1964, this 2600 version available for a complete restoration. This car is equipped with a 2.6L alloy in-line 6 cylinder as well as 3 carburetors giving it 145hp and came out of the factory as "Rosso" (Red) exterior and "Nero" (Black) interior when sold in the USA. Confirming documentation from the factory is on file. It is fitted with a 5-speed transmission and disk brakes. The extensive quality restoration is described in detail in our "Restoration" section. It is still possible to decide on the colour and interior finishing options. Our cars are restored to as close to original condition as possible with quality and integrity.
